

UKRAINE BUSINESS COMPACT

15 June 2023

Space Centre Australia operates from Australia and the United Kingdom. Our core values embody peace, collaboration, good will and global co-operation for the advancement of humankind on earth and peaceful use of Space.

Space Centre Australia decided to join the Ukraine Business Compact to further enhance the support we are already providing to the Ukraine Space Industry. Space Centre Australia is a veteran owned business, and we understand and have lived through past conflicts. We understand the pain and challenges the people of Ukraine are enduring right now and into the future. In conjunction with our support the rest of the world must stand against tyranny and conflict as this does not benefit humanity.

“In war no one wins and if we let evil prevail everyone loses.”

Globally it is of utmost importance that Ukraine emerges the victor and its reconstruction and restoration is a priority to maintain global stability and peace for the European region and the rest of the world.

Business can publicly sign the Ukraine Business Compact at: <https://www.urc-international.com/business-organization-application>

James Palmer, MEM, CompIEAust, EngExec
