

[FOR IMMEDIATE RELEASE]

SPACE CENTRE AUSTRALIA EXPANDS WITH NEW REGISTERED OFFICE IN VIRGINIA, USA

Date: 27 April 2024

Space Centre Australia Embarks on New Horizons with Registered Office in Virginia, USA

Space Centre Australia is thrilled to announce a significant milestone in its journey towards furthering space exploration and innovation. Today marks the official opening of our registered office in Virginia, USA, signalling a new chapter of growth and expansion for our organisation.

The establishment of Space Centre Australia LLC in Virginia represents a strategic move to tap into the vast opportunities available in the United States' thriving aerospace industry. This development also comes at a pivotal moment as we accelerate our efforts to support the Orbit Boy Horizontal Air Launch Vehicle development pathway.

With our expanded presence in the United States, Space Centre Australia is poised to leverage the rich ecosystem of resources, expertise, and partnerships available in the region. Coupled with our UK and Australian locations this move not only strengthens our foothold in the global space sector but also underscores our commitment to fostering innovation and collaboration on an international scale.

The decision to establish a registered office in Virginia aligns with our long-term vision of becoming a key player in the space industry. By positioning ourselves strategically within the United States, we aim to facilitate seamless collaboration with local stakeholders, attract strategic investments, and drive forward our ambitious projects.

Speaking on this momentous occasion, Space Centre Australia's CEO, James Palmer, expressed his enthusiasm for the new venture. "The opening of our registered office in Virginia marks a significant milestone for Space Centre Australia. This strategic move will enable us to explore new business avenues, forge valuable partnerships, and propel our mission of advancing space exploration," remarked Mr. Palmer.

As we embark on this exciting journey, Space Centre Australia remains committed to driving innovation, pushing the boundaries of space exploration, and contributing to the growth of the global space industry. Our team is dedicated to realising our vision of unlocking the mysteries of the universe and shaping the future of humanity's presence beyond Earth.

In addition to supporting the Orbit Boy Horizontal Air Launch Vehicle development pathway, Space Centre Australia LLC will focus on capital raising initiatives within the United States to fuel our ambitious projects. Moreover, we are actively exploring new commercial and government business opportunities to further our impact in the rapidly evolving space sector.

Space Centre Australia invites partners, stakeholders, and enthusiasts from around the world to join us on this transformative journey. Together, we will push the boundaries of human achievement, inspire future generations, and usher in a new era of space exploration and discovery.
